Stabilization in the braid groups (with applications to transverse knots)

Joan S. Birman and William W. Menasco

February 1, 2008

This paper has been withdrawn and replaced by two other papers:

1. *Stabilization in the braid groups I:MTWS*, published in Geometry and Topology **10**, 413-540, arXiv:math.GT/0310279, and
2. *Stabilization in the braid groups II: Transversal simplicity of knots*, Geometry and Topology, to appear, arXiv:math,GT/0310280.

Together they subsume the contents of the original version.
